

Quiet Session of Town Council Monday Evening

Councillor Shaw was Appointed Deputy Mayor

Very little business was transacted at the regular meeting of Town Council last Monday evening.

A letter was read from Mr. W. H. Bell requesting extension of contract agreement for his property.

Several applications for relief were received but were left over for investigation.

A motion was passed complying with new law requiring to pay 33 1/3 cents per hour for work of town employees in accordance with the Wage Act.

Councillor Shaw was appointed deputy mayor for the next quarter.

Accounts as passed by the finance committee were approved for payment.

Mr. N. Dacre asked for price of the house in which he is living in Lockwood. The price was set at \$125.00.

Several matters which were introduced were left over for investigation.

Mr. Bert Podesta who has been visiting relatives in California for the past few months returned home this week.

It now appears that the Duke of Windsor has changed his mind about going to U. S. with his Duchess, as it seems that there is some important reasons.

Convicted of stabbing a 14-year-old girl, Marshall Bertrams Evenden of Edson, Alta., was sentenced by Mr. W. C. Ives in Alta. supreme court Monday, that the offence was punishable with the death sentence or life imprisonment. The 20-year-old farm hand then was sentenced to five years and 20 lashes.

Mr. Ramsay MacDonald, the distinguished Premier of Britain for several years, died suddenly on board ship last Monday when he was going from Bermuda to South America. The body was sent back to his old home in the Old Country.

Shipments of wheat from Aug. 1st 1937 to Oct. 16th 1937 totalled 91,077,000 bushels, compared with 116,008,000 bushels for the same period last year. This is a decrease of about 25 1/2 million bushels.

Trees Are Available for Alberta Farmers

Application Made to Forestry Division of Department

With reference to the very important function of trees planting in Alberta, it was learned in an interview given today by the Honourable N. E. Tanner, Minister of Lands and Mines, that certain species of trees are available to farmers for transplanting in existing bluffs, and the extension of windbreaks. These trees may be secured on application to the Forestry Division of the Department.

The principal object in view, Mr. Tanner stated, was to provide transplants of the more durable species for planting in natural bluffs, shelterbelts and windbreaks.

The Minister stated that there is available for planting in the spring of 1938 a large quantity of loblolly pine, green ash, and northern fir and a limited quantity of white spruce and elm. There is also a considerable number of bar and red oak available for distribution.

To avoid any possible confusion, application forms should be secured from the Director of Forestry, Department of Lands and Mines, Edmonton. These forms should be properly filled out as to quantity and species desired, and should be returned to the Department not later than the end of the present year for planting in the spring of 1938.

A Court Decision Saves Fair Play

Law Tried to Pass Would Be Like Russia

A case tried by Mr. Justice Ewing has decided that the Alberta Legislature is not invested with the power to deny citizens of the province the right of access to the courts.

It would indeed be a crime and throw Alberta into the same class as Russia if any government in this country would could pass legislation which could refuse citizens to have the right to go to court to try a case in which they felt they had not received a fair deal.

Last Sunday Concert Here Well Attended

Next Sunday's Concert To Be Held in Local Armory

Cliff Hall was well filled last Sunday evening for the concert which was put on for the purpose of collecting funds to distribute among those who are in need of help.

The entertainment was a decided success. The program consisted of Redcliff talent and was well received.

Mr. F. Baird very capably handled the chairman's duties outlining the purpose of the concert.

The committee in charge wish at this time to heartily thank all those who assisted in making this first concert a success; namely, Mrs. A. McGinnis, who presided at the piano, the Canadian Legion, who loaned the hall for the occasion, the Music Lodge, for the use of the hall and the artists who very capably took part in the program.

For the information of the public a neutral attendant count of the collection which amounted to \$13.45.

The second concert of the series to be held on Sunday evening in the Armory Hall Nov. 14th.

A good program consisting of School Children is being arranged. Mr. Nels Luna will act as chairman.

The committee in charge ask at this time that each child under the age of 12 years of age be accompanied by an adult.

The attendance at the first concert numbered 125 persons and it is felt that next Sunday the number will be doubled.

The Review is in receipt of an article for publication in our paper but as it is not signed in full by the author we cannot publish it. On many occasions we have reminded our readers that newspapers cannot publish articles sent in, unless the writer's name is signed to it. Although it is not necessary to publish the writer's name we must have the article signed to protect ourselves.

Public Meeting To Be Held in The I. O. F. Hall

Expert to Organize a Local Chamber of Commerce

Arrangements have been made by a number of business men in town, to call a public meeting in the I. O. F. Hall on Friday evening of this week for the purpose of organizing a local Chamber of Commerce. The main idea for organizing is to discuss questions which some feel is in the interest of the town and surrounding country and to improve conditions for all concerned.

The outstanding question which has been locally discussed is to take steps to bring attention to federal and local governments for the purpose of bringing a movement to bring about a system of irrigation through the districts which are possible for being supplied with sufficient water to improve farming conditions.

It is hoped there will be a good attendance at the meeting and an invitation is extended to farmers from the surrounding district to attend.

Melody Mads Concert Here Sun. Nov. 21

Will Be Held in Local Armory After Church Services

Arrangements have been made by the committee which is in charge of putting on concerts to raise funds for those in town who are in need. Have Mr. R. Fuller's Melody Mads of Medicine Hat put on a concert here on Sunday evening November 21.

This concert will be held in the Armory immediately after church services.

Some of Miss Colter's pupils will also take part in the program.

All citizens are invited to attend as the committee is anxious to raise as much funds as possible.

Quadruplets were born in Worcester, Eng., last week-end. They were two boys and two girls. The boys are still alive but the two girls died shortly after birth.

Mr. Fallow Likely of Premier's Opinion

Planes Cost Of Road Work On His Subordinates

At a meeting at Barons last week Hon. W. A. Fallow, Minister of Public Works blamed the excessive costs of highway work on his subordinates. According to the investigation of this work by Judge Lannan the finding was that Mr. Fallow utterly disregarded the senior officers of his department, he didn't take them into his confidence and didn't consult their estimates, but personally arranged his whole organization.

When Mr. Fallow took this stand at Barons he no doubt had the same opinion as Premier Aberhart who is credited with having said he believed that a large percentage of Albertans had the mentality of a 12-year-old child.

Extend Boundaries of Hut Judicial District

Are Described in Recent Issue Of Alberta Gazette

The last issue of the Alberta Gazette details of the extended boundaries of the Judicial District of Medicine Hat are given the additional territory taken in at being on the western end of the district. The former boundaries of the Red Deer to the north, the Saskatchewan and U.S.A. borders to the east and south remain the same.

The new boundary extends the north and south ends of the Saskatchewan river to range westward to include the town of Bow Island and Burdett and north of the river four ranges westward to take in the towns of Tilly, Brooks and Camella on the C.P.R. main line and Patricia Millmont and Rosemary on the Edmonton line.

In the election for Mayor in Edmonton last Wednesday J. W. Fry was elected, defeating J. A. Clark the former Mayor who was a supporter of Social Credit. All three Social Credit Aldermen candidates were defeated.

From the point of view of the provincial game branch, the antelope season this year has been highly satisfactory. Frank Ward game inspector in charge of the Calgary office, stated last week. It said he did not think as many antelopes had been shot this year as in the previous two open seasons. The antelope have been getting wilder each year, but even at that there were several who secured their limit of two of which had to be a female.

Mr. Unwin Was Found Guilty of Defamatory Libel

Was Remanded For Sentence Until Friday

Joseph H. Unwin, Social Credit M. L. A. for Edmonton and government whip in the Alberta legislature, was convicted by a supreme court jury Wednesday on a charge of defamatory libel "well knowing the same to be false."

He was remanded for sentence until Friday morning by Mr. Justice Ives.

The six-man jury, returned its verdict after deliberating one hour, recommended "leniency." Maximum penalty provided under the Criminal Code of Canada for defamatory libel "well knowing the same to be false" is two years imprisonment or a fine of \$400 or both.

Mr. Unwin faced two charges as a result of publication of letters entitled "Bankers' Toodles" the first charge was defamatory libel "well knowing the same to be false" and the second was defamatory libel alone.

Too Much Politics and Little Religion

Causes New Organization From Aberhart's Tabernacle

A New Prophetic Bible Institute has been organized in Calgary as a number of former members disagree with the political policies adopted by Mr. Aberhart. They claim Mr. Aberhart, devotes too much time to politics and not enough to religion.

Four Social Credit candidates were nominated for the agricultural vacancy in Lethbridge and one of the four will be chosen as candidate by the Social Credit Advisory Committee. The Labour union has already nominated A. Simonton and Liberals, Conservatives and U. P. A. will later make a choice for candidate.

Cars will be at Gordon Memorial next Sunday evening for service at Fifth Ave. Church.

Editor's Vision To Be Realized on World Cruise

The above picture showing the Empire of Britain and Empire of the world, the largest ship built in the Empire since the war.

Now comes the announcement that the Empire of Britain will visit Sydney during her 1937 tour of the world.

Not only Sydney will be visited while the big white liner is in the Antipodes; she will also take her cruise members to Melbourne

and to the New Zealand ports of Wellington and Auckland. Her cruise starts from New York January 8 and will end there on May 14. Child heading for Australia she will follow the usual world cruise route - Madeira, Gibraltar, Algiers, Naples, Athens, Palermo, Sicily, India, Ceylon, the Straits Settlements, Singapore, Hong Kong, leaving New Zealand and she will go to the Philippines, also new territory for her World Cruise - Honolulu, San Francisco, Los Angeles and the Panama Canal Zone.

Seeding From The Skies

Intending to the farmers of the prairie provinces, to say the least, is the information that in Soviet Russia grain and grass seed is being planted at the rate of 400 acres a year by the use of aeroplanes and still more efficient is the suggestion that "early seed" could "early seed" could be sown in the broad fields of the wide open spaces in Western Canada.

Both information and suggestion were promulgated by J. A. Riley, O.B.E., Executive Commissioner of the Boy Scouts in Canada and former Dean of Applied Science at the University of Fredericton, New Brunswick, at a recent luncheon meeting in Regina. He volunteered the additional information that this method of seeding grain as adopted in Russia has the advantage of making it possible to seed fields covered with snow or mixed after rains.

While credence must be given to the Dean's statement that this practice has been, or is being, adopted in Russia, a good deal more information as to the conditions under which this operation is carried out and the results achieved therefrom before due weight could be given to his correlated suggestion that the Canadian west lends itself to this method of seeding grain, principally because of the fairness of the country "landings" could be made easy.

On the face of it there must necessarily be many factors, other than ease of landing, before it could be recommended as a practicable feasible plan for the Western Canadian farmer as a general thing.

For instance, it would be interesting to know whether in Russia the method has been adopted only in one or two isolated instances where special circumstances and conditions conspired to make it a feasibility, economic, and otherwise as, for example, on one of those large collective farms where the area is measured in square miles rather than in acres, and whether even on those huge farms the method is only in an experimental stage or was used as an emergency measure to speed up production in accord with a government quota.

It would be interesting, too, to know the results of the work carried on in Russia with an aeroplane travelling perhaps at 100 miles an hour or more blasting seed over the countryside in large quantities. Is it possible to broadcast seed in this manner from the fast travelling motor-propelled vehicle somewhere between earth and clouds without wasting large quantities of seed? Can grain seed this way be distributed thinly and evenly as it can be by a horse-drawn or even a tractor-drawn drill?

There are none of the questions the Western Canadian farmer would like to have answered before he would be prepared to lend acquiescence to the good Dean's suggestion that such a method could easily be applied in this country.

And even if those questions were answered favourably to the plan and to the satisfaction of the interrogator, there are others which would have to be answered satisfactorily before the Western Canadian farmer could be expected to warily espouse the Dean's somewhat novel suggestion.

It is obvious, for instance, that the average three quarter section or section farmer could not afford to purchase an aeroplane to seed his crop, for that would be the only agricultural operation for which it could be used, except perhaps to spray the fields with insecticide or poison bait. The cost would be prohibitive in proportion to the return, no matter how good the yield and how high the price of grain. If it is to be adopted, therefore, it would have to be a custom proposition, if the average farmer is to be able to avail himself of this method of seeding.

If, therefore, the method of seeding is to be adopted, to be of benefit to the average farmer it would either necessitate its operation by a large number of farmers on a co-operative basis or by some private individual or corporation willing to run the risk of a method what must necessarily be a substantial investment remunerative. If the latter, it might necessitate a charge for seeding out of proportion to the benefits derived from fast seeding when conditions are ideal, for germination of seed scattered from the skies.

There are, of course, advantages which could be credited to the seeding of grain fields by aeroplane. The speed with which it could be done and the large acreage which could be covered in a few hours would make it possible to put in a lot of crop when soil and moisture conditions are most receptive for the seed, but the factors in query and perhaps others would have to be first answered favourably before such a method could become general practice in Western Canadian grain fields.

It is predictable that a great deal more information will have to be received on this subject before the farmers of this country will take the chance of adopting Mr. Riley's proposal.

Will Visit Province

So much of this Commemorative year has been spent by the King in London that next year will be more or less devoted to the province. Festive arrangements have been made for His Majesty to visit Nottinghamshire and Lancashire in the spring, though no dates have been fixed, reports the Daily Sketch. There will also be a visit to the Duchy of Cornwall.

Looks That Way

Just—It must have been born lucky. Friend—Why? Jack—Well, I was at a football match yesterday and there were 22 players and a referee on the field, about 20,000 spectators on the ground, and the ball hit me.

Freedom of Speech

Sir Edward Beatty Makes Appeal Before Students At Queens University

Sir Edward Beatty, president of the Canadian Pacific Railway, and chairman of the McGill University, held a convention gathering at Queen's University that "I am appealing for freedom of thought and speech, but within the limits of accurate knowledge, sound logic, a sense of responsibility and the ordinary amenities of public life in a civilized community."

Principal speaker at the convention, Sir Edward was recipient of an honorary LL.D. degree. He recalled his appointment as chancellor of Queen's in 1919 and the fact he was chancellor of both Queen's and McGill from 1921 to 1923.

Uniquely brave had been charged with attempting to limit freedom of speech and repressing liberty of thought, Sir Edward asserted in discussing the subject which formed the main part of his address. Nothing could be more untrue than the charge, he said.

"I have myself said, and I shall say again, that liberty comes, and that it is sacred, and nowhere is the truth more important than in the life of our universities," he continued. But Sir Edward continued, there were limits within which these liberties may be exercised.

"It is equally foolish and equally wrong to proceed on the assumption that this freedom and these liberties can carry with them the notion of seeing that they are not destroyed by the intemperance and irresponsibility of us as individuals."

South Seas Mystery

Island Found Deserted Was Proclaimed Source Of Gumbo

The schooner Denny ran into a murky South Seas mystery recently when it reported having found a small island in the Pacific Ocean, 300 miles north of Hawaii.

Malden, a profile source of gumbo who is reputedly brought into a camp by wandering sea captain, was found deserted under what looked like a human footprint.

The captain of the Denny reported finding large warehouses filled with merchandise of every description and numerous indications of a hurried departure by persons who supposedly had been harvesting wealth in the gumbo trade.

Malden was discovered in 1948 by an American whaling captain. He told the world of gumbo and added to return and exploit it.

In the meantime another whaling boat came along the coast and the same idea but instead of delaying, threw his whaling plan overboard, sailed for Sydney and said he discovered there for a comfortable sum of money.

The purchasing company worked the island for decades and was said to have amassed a great fortune.

Warton, Ontario, is a 34-year-old boy who plays football, umpires baseball, is skilled at drawing, writing well, rides a bicycle and has his share of fun. Nothing unusual about that. But in this case the boy is Bert House who lost both his arms as the result of an accident seven years ago.

"They can't think they can't be the motto Bert holds before himself. It was inscribed in a book written by W. R. Watson, himself a boy who lost an arm, and who sent Bert a copy of the book. When Bert was seven years old he was in a fire which took his arms. While playing on a roof, a splinter of both arms was necessary.

Bert still has trouble eating and dressing but he thinks he soon will have mastered these arts. He writes and draws with a pencil held in his teeth. He even goes fishing, holding the pole between his chin and the side of his neck.

He has confidence in the future, and intends to make his own way. "Somebody will open up by the time I leave school," he said. "I know it will."

"Why have you no speedometer on your car?" "I don't need one. At thirty miles an hour the lamp catches it; at forty the wipers catch it; at fifty the whole car catches it; and if I go any quicker than that my teeth chatter."

A turtle, when active, can refrain from breathing for a day or two. When hibernating, it can live for months without breathing.

A Manchester breed of hen lays quarter-pound eggs.

Streets Of Gold

Unique Tourist Attraction Is Furnished By Business Of Dawson City

Dawson City, Yukon Territory, boasts a unique and somewhat startling tourist attraction. Streets of gold. After the recovery of the Klondike gold rush, the streets of Dawson City were covered with gold dust, and the streets of Dawson City were covered with gold dust, and the streets of Dawson City were covered with gold dust.

New towns of about a thousand souls, Dawson was in the heyday of the famous Klondike gold rush a city of about 40,000 population. The original miners delved for gold with picks and shovels and washed out their gold in rockers or sluices. In day huge hydraulic dredges are operation in the Klondike area and the dredging of gold has become a fine art. The variety of odds and ends picked up by these 'mammoth' machines includes large quantities of bird shot, bullets, small pieces of metal, in addition to the occasional watch, ring, knife, and guns of all sizes and shapes. At one time all this junk was simply thrown away, but a few years ago an engineer in charge of the recovery process in an experimental mood decided to treat several hundred pounds of this material in a special way.

As a result of this experiment pure gold with several hundred dollars worth of metal and all bullets, shells and bits of metal are carefully salvaged and treated to extract every last bit of gold.

In common with other cities and towns Dawson has its parking and traffic problems. Street cars and trucks of all sorts clutter up the streets and trails at all hours. Many of the famous 'creeks' in the Klondike gold fields can be reached by motor car over a network of excellent roads.

A Troopship De Luxe

British Soldiers Will Enjoy Lines Comforts On New Boat

British soldiers sent to distant stations in the Empire or on foreign expeditions who are fortunate enough to be carried on the troopship Duners will travel in comfort and luxury for the first time.

The vessel, of 11,160 tons, has been built for the British India Steam Navigation Company. It is the largest of the company's fleet and has just completed her trial trips on the Clyde.

The cable length of the ship is 25,000 feet and has just completed her trial trips on the Clyde. The vessel is completely equipped with a modern kitchen, dining hall, and a large number of staterooms. ALICE STEVENS' RECIPES

DO YOU KNOW HOW TO HANG PICTURES IN YOUR HOME?

Do you have to look up at the pictures in your living-room? If you do, they are not hung correctly. The centre of the picture should be on a level with the eye, so that the picture can be seen to proper advantage. The centre of the picture on the same wall, should be in a line rather than the top or the bottom.

Do your pictures lie flat against the wall or are they tilted out? They should be flat against the wall, otherwise the picture seems unnatural.

Do you see only the picture or your attention divided between the wire and the picture? There should not be one wire formed into a V over a hook. There should be two wires used for heavy pictures and for small pictures no wire at all should be used.

Do your pictures show up against the background or do they disappear? Much design in your wall covering? A small quiet design is best for wallpaper.

Do your pictures fit the wall space in which they are hung? A wide picture should not be placed in a narrow space between two windows. Do you have too many pictures on your walls? It is much better to have a few pictures of good quality than a large number of small pictures.

Do your pictures express your personality? You are judged by the pictures found in your home. Have your pictures a quality of good quality? Do your pictures express beauty or tell a story?

Readers are invited to write to Alice Stevens' Home Service for free advice on home cooking and household problems. Address: Mrs. Alice Stevens, 115 McDermott Avenue, Winnipeg, Man.

Woolen Mill Opened

Rural Municipality Town Establishes A New Industry

An event of more than passing interest, and one that may have important results for the future development of the West, took place at St. John's, when the law firm of Spin-Wool, Ltd., was officially opened by two Manitoba lawyers.

The building is 100 feet long, 40 feet wide, two stories high, and has a concrete floor and roof. It is a modern building, and is a good example of the new type of building that is being erected in the West.

The official opening took place on October 14th, the Hon. J. B. Griffin, Minister of Health and Public Welfare, officiating. He was accompanied by the Hon. W. R. Chubb, Minister of Public Works, and the Hon. R. Hawkins, Speaker of the Legislature.

The Hon. W. R. Chubb in his remarks complimented the directors for their initiative and enterprise. As the Minister responsible for the administration of relief, he stated he was extremely gratified to find that a permanent home in the country of the new Government officials which he had been in the country for so long, and that he was very glad to see the problem of unemployment could be solved to a great extent through the establishment of industry using the products of the farm.

Wasted Effort
The chamberlain called at the voter's door and was duly invited inside. When he went into his room, he found the voter's door open, and he was very much surprised to find the voter's door open.

He printed the candidate. He gave facts and figures. He presented new arguments and old ones, all very reasonable.

The householder listened for an hour or more with much interest. Finally, the householder said his hand.

"I am convinced," he said. "There's no answer to your arguments. I'll vote for the watching of the trans-Atlantic cable, and I'll vote for one thing."

"What's that, sir?"
"My name is not on the voters' list."

To hatch the egg of a hen, a temperature of 104 degrees Fahrenheit sustained for a period of three weeks is necessary.

System Is Efficient

Poultry Rearing Raised Amid Sky-scrapers Of New York

City born-and-bred chickens are likely to replace the barnyard variety throughout most of the "built-up" area of the United States. Poultry raising amid the skyscrapers of New York is now being carried on with the full approval of the city's health department. The fowls are incubated, hatched out, and spend the whole of their lives in small metal containers, and when they fall to lay a profitable number of eggs, they are killed, dressed and marketed all in the same building.

One large New York hotel supplies its dining rooms with broilers and small meat boxes. With the layers an egg it drops into a collecting box. —Archibald Squire (London).

Piper Must Be Paid

Governments Have To Make Money

Nowhere is there any great upsurge of public demand to restrict or reduce services which municipal governments perform. Virtually every municipal body is constantly facing demands for increased services, but there is one original appropriation for new services may be made, but social commitments for larger expenditures in the future, if tax limits are to be imposed, it seems only equitable that there should be a limit, too, on the number, kind and quality of services a municipality is to furnish. —Philadelphia Bulletin.

A Long Service Record

Speaking of long service records, here's one to shoot at: At West Noddy, England, a man has completed 27 years as superintendent of the Methodist Sunday School.

In the torrid zone, where the world's heaviest rainfall takes place, it is always "use on its back" in the position popularly called the dry moon.

Cotton is cultivated in 19 states of the Union.

British Soldier Killed When Japanese Plane Bombs Defences

Shanghai.—A British soldier was killed, and five Americans and about a score of other foreigners were endangered gravely Sunday when a Japanese warplane, with machine guns blazing, swooped five times over groups near the western edge of Shanghai's international settlement.

A British battery, at the scene said British soldiers returned the Japanese aircraft's fire with automatic rifles. Japanese naval and civilian officers quickly expressed regret to the British authorities.

British army officers disclosed three British outposts in the Kowloon road area were grazed by the Japanese aircraft's bullets and that a second mortar exploded seriously when a cigarette case stopped a bullet which pierced his uniform.

A Japanese spokesman said the shooting was due to the error of an aviator who believed he was attacking Chinese.

A Chinese spokesman ridiculed Japanese reports of Chinese soldiers from Tientsin and other sectors northwest of Shanghai.

"Our lines are intact and the morale of our troops is excellent," he declared. Chinese still cling to Chapel, adding the international settlement is holding firm in the right wing of their defence line. It was understood General Chiang Kai-shek had ordered Chapel held at all costs.

The attack coincided with what Japanese spokesmen called a general advance of their forces along the front north and northwest of Shanghai, with the Chinese retiring at nearly all points. The Japanese said they had advanced to the gates of Tientsin, key point in the Chinese defence and objective of Nanking, 10 miles west of Shanghai. Large Chinese forces were said to have been trapped near Nanking.

The British view of the Japanese attack was likewise W. McCowan of the Royal Ulster Rifles, natives of Hongkong, Ireland. He died soon after admission to a hospital.

Four times the airmen swooped at groups of foreigners seeking refuge along the Kowloon road, outside the international settlement, inside the British defence line. Many were on horseback, others walking. The fifth time the airmen plunged toward the British defence position, McCowan was hit; other British soldiers died beside him. Then, said a sentry, a British naval officer ordered the men to reply with automatic rifles, which they did.

"We were under orders not to fire unless ordered by an officer or we would have fired sooner," the sentry explained. He said four British soldiers were killed by the Japanese plane.

No forgiveness except McCowan was hit, but four Chinese soldiers were reported killed and six wounded. H. D. Rodgers, prominent American lawyer, said the attack was "plain murder." He said that 20 men and women riders, "dressed in all kinds of sports clothes in which it was impossible to mistake them

for soldiers," were scattered along the roadway.

"When the plane came down I dived into the bushes," said Rodgers. "Others did likewise. It was a miracle none of us was shot."

R. K. Smith, manager here for a United States insurance company, also said it "was a miracle" none of the riders was killed.

"We were riding along laughing and joking," he said, "when suddenly the plane dove over us and bullets peppered the earth around us. The only refuge was a ditch, so we hung ourselves into it and prayed for the best."

To express official regrets for the Kowloon road shooting, Rear-Admiral Hakuro Sugiyama, chief of staff of the Japanese naval force, called on Admiral Sir Charles Little, British commander-in-chief, while K. O. Chomura, Japanese consul-general, made a similar call on Herbert Phillips, British consul-general.

Restored To List

Hon. Howard Ferguson and Colonel H. E. King's names were restored to the list of members of the Ontario General Convention announced that names of Hon. C. Howard Ferguson, for the Canadian high commissioner in London, and Col. George A. Drew, former Ontario secretary of the convention, had been restored to the list of king's council.

In creating Mr. Ferguson and Col. Drew into members we are doing so in recognition of their services to the province and without any relation to any previous action in connection with this distinction, the attorney-general said.

Though they were made K.C.'s, the names of Mr. Ferguson and Col. Drew were dropped from the list for failure to pay the fees required to lift their names.

Attorney-General Constant also announced that Hon. Eric Croft, minister of public welfare and municipal affairs in the new Northern government, had been created a K.C.

Shells From Ender

Found On Japanese Ship Which Docked At Singapore.—Memorandum of the War were revived here by the serious discovery of 400 shells of a Japanese ship thought to have belonged originally to the famous German raider Ender.

The Japanese vessel put in here and was found to have 400 six-inch shells aboard. Officers said they found the shells on an island in the Indian ocean.

Author Named Beneficiary.—Robert W. Service, famous Canadian author, was named beneficiary with his four brothers and two sisters when the will of their mother, Mrs. Sarah E. Service, was filed in supreme court for probate.

"Plain murder," he said, "that 20 men and women riders, 'dressed in all kinds of sports clothes in which it was impossible to mistake them

World Wheat King

Samuel Lacombe, Famed Agriculturist, Dies At His Hospital At Brattle, Man.

Brattle, Man.—Samuel Lacombe, "world old man" of western Canada agriculture and world wheat king in 1917, died in hospital here October 30.

The 86-year-old retired farmer, famed as the producer of Amnister wheat, a run-around variety, was brought to hospital suffering from pneumonia and he sank rapidly. Besides giving the world run-around wheat in 1917, Mr. Lacombe won 2,000 prizes for his products in his 45 years of farming in Manitoba. His farming career was capped with victory at the International Grain Exposition at Peoria, Ill., in 1917 when he received world wheat king.

Born in Musbury village, near Amnister, Devon, April 9, 1851, he began work on a farm with his father at the age of nine as an experienced hand. In 1880 he came to Canada, becoming a homesteader in 1910, 1800 miles west of Winnipeg.

On three occasions he won the superlative prize, for the best soil products exhibited by any individual at international shows. In 1915 he took top honors at the World's Soil Products exhibition at Kansas City, and again at exhibition in Winnipeg during 1913 and 1920.

For his brilliant achievements Mr. Lacombe was honored on many occasions. During the war he was elected to the Manitoba legislature a resolution was passed extending his privilege to his 85th birthday and thanking him for his valuable, devoted and unselfish services to agriculture.

Aeroplane Disaster

Youthful Trapper Tells Story Of Crash On Mountain Side.—Salt Lake City.—A mountaineering eye-witness to the United States' worst aeroplane disaster, told a vivid story of a transport pilot flying blindly through a mountain blizzard, then a terrific crash which killed 10 persons.

Height, 10,000 feet, youthful trapper from northeastern Utah's trackless wilderness, said he saw the United States' worst aeroplane disaster, then a terrific crash which killed 10 persons.

He said he saw the United States' worst aeroplane disaster, then a terrific crash which killed 10 persons. He said he saw the United States' worst aeroplane disaster, then a terrific crash which killed 10 persons.

FAMOUS WAR GENERALS TOGETHER

New York.—After a spirited ride on a separator, Violet Clementine of Edmont took second money in the world championship rodeo, at Madison Square Garden.

Peggy, former high officer of the Indian police, to Palestine to advise the government on the strengthened police administration.

The colonial secretary said effective action had been taken to deal with the violence growing in Jewish and Arab communities. The government now felt free, he said, to undertake the investigation required before the division of the Holy Land into sovereign Arab and Jewish states and a British mandate.

Accordingly, he said, it was proposed to appoint a special body to investigate conditions in the Holy Land and submit a detailed report of partition along the general lines of the royal commission report.

Jews, meanwhile, are to be sent out of the country's new draft ordinance restricting immigration of Jews and other foreigners to the Holy Land. The ordinance, carrying out one of the commission's proposals, empowered the high commissioner to grant a fixed number of immigration permits to March 31, 1934, instead of regulating immigration according to the country's capacity for economic absorption.

The excellent photograph, taken at the dedication of the American war memorial at Chateau-Py, shows two of the commanders in the great conflict: Marshal Foch (left) of France, and General John J. Pershing (right), commander of the U.S. expatriate forces.

General Franco Is Armed With Power To Be Dictator of Spain

Science And War

Hammy MacDonald Makes Plea For Democracy

London.—Former Prime Minister Ramsey MacDonald, addressing the British Association for the Advancement of Science, discussed the effects of modern science on warfare.

He said China and Spain had shown the great advance attributable to science in the destructive forces of so-called civilization. These would be repeated with increased horror wherever war broke out.

"If we cannot avoid war, we cannot avoid the worst that can happen in warfare," he said, in delivering the first Radcliffe Lecture to the association. "But let us not be misled by thinking scientists are growing more peace-loving."

The action of the farmer in growing wheat and food for war, he continued, was akin to the engineer turning out improved firing machines. But it was false judgment and cowardly fear to blame them if peace was not secured.

"The plea I make is for practical democracy, but if democracy is to triumph, the attack must be made, it must have method and I believe the records of the scientific work of the way he sets out his work will stand and clarify the popular mind not only to contain the former but to contain victory," the former prime minister declared.

What The Press Could Do

Toronto.—If the newspapers could give the public more attention to the dangers of the disease, which has killed 12 lives in Ontario last year, would some be wiped out, said Dr. R. T. McCall, Ontario deputy health minister, speaking to the Local Council of Women.

The border between Syria and Palestine was closed according to a dispatch from Beirut, and Chant Danon, director of French high commissioner for Syria, requested the Syrian government to prevent anti-Jewish demonstrations and propaganda. The border between Lebanon and Palestine was not closed, but travellers were examined closely.

British Scientist Dead

Lord Rutherford Worked Many Years Yarns Problem.—Cambridge.—Lord Rutherford, one of the world's leading physicists and director of Cambridge University's famous Cavendish Laboratory for more than 18 years, died recently, aged 68. Lord Rutherford was Macdonald professor of physics at McGill University, Montreal, from 1908 to 1927.

Lord Rutherford had worked unobtrusively but intensely for more than 30 years on the problems of atomicity, preparation of elements and the splitting of the atom. The scientist, a native of New Zealand, was knighted in 1914, when he was known as Sir Ernest Rutherford. He was created a baron in 1931. In 1925 he received from King George V. the coveted Order of Merit.

It is accepted these assurances are being given in good faith. I am very glad they have been given. They relieve us of the necessity of considering a situation which, if it had arisen, might have made a material change in the military conditions of the western Mediterranean and would have been a matter of serious concern to His Majesty's government.

The prime minister would up a long and searching debate on foreign affairs in the first session of the commons following the summer recess.

After he spoke the house approved a government motion to adjourn by a vote of 103 to 111. Labor voted against the motion to register its disapproval of the government's policy.

Mr. Chamberlain said he was a Labor chair that the government's policy was to adjourn by a vote of 103 to 111. Labor voted against the motion to register its disapproval of the government's policy.

England Intends To Proceed With Partition Of The Holy Land

London.—Renowned terrorist violence was reported from Palestine as the secretary of state for colonial affairs, William Ormsby-Gore, told the House of Commons Great Britain intended to go ahead with the plan for a three-way partition of the Holy Land.

Despatches from Jerusalem told of new attacks at the Lydda airport, where severe punitive measures had been taken by the government following the burning of schools. The Iraq oil pipeline was again punctured by shots near Beisan.

Police hunted the assassins of Avraham Yelin, Cambridge-educated senior inspector of Jewish schools in the department of education on, who was shot and critically wounded as he was entering his Mount Zion office house the old city walls.

On the Jaffa-Jerusalem road near Motza daylight ambushers attacked a Jewish bus with a fusillade of shots. Four Jews were injured by flying glass.

Mr. Ormsby-Gore declared the government was meeting Sir Charles

Peggart, former high officer of the Indian police, to Palestine to advise the government on the strengthened police administration.

The colonial secretary said effective action had been taken to deal with the violence growing in Jewish and Arab communities. The government now felt free, he said, to undertake the investigation required before the division of the Holy Land into sovereign Arab and Jewish states and a British mandate.

Accordingly, he said, it was proposed to appoint a special body to investigate conditions in the Holy Land and submit a detailed report of partition along the general lines of the royal commission report.

TOWN OF REDCLIFF The Local Tax Arrears Consolidation Act

The Council of the Town of Redcliff has passed a By-law declaring that the above Act will be applicable to the Town of Redcliff and said By-law has been approved by the Minister of Municipal Affairs in writing. All consolidated arrears of taxes shall under this Act be payable by five equal annual instalments together with the current taxes on or before the 15th day of December except as hereinafter mentioned.

The following persons may make application to the Council to come under the provisions of the above Act.

Any person, firm or corporation who is the owner of any parcel of land in the Town of Redcliff against the title of which there is a subletting of section for arrears under "The Tax Recovery Act 1929."

Any person who has been a bona fide resident of the Town of Redcliff for 12 months immediately preceding the date of his application in the case of lands which have been finally acquired by the Town of Redcliff but not sold, or such persons personal representative.

In such cases where the applicant's property is to be exposed for sale at the forthcoming Tax Sale on Sept. 15th, 1937, such applicants should make their applications in time for the Council to consider same previous to that date.

Upon receipt of the application, the Secretary Treasurer shall calculate the amount required to pay the arrears of taxes, if the same were consolidated, and the applicant shall deposit with the Secretary Treasurer one fifth of such sum.

In such cases where the applicant to consolidate is made after the 5th day of November 1937 the applicant shall also deposit with the Secretary Treasurer sufficient to pay the current year's taxes.

In any event the current year's taxes shall be paid by the applicant on or before the 15th day of December.

When the application is granted, the deposit shall be applied on the applicant's consolidated arrears, otherwise it shall be repaid to him.

In case the application is not granted, provision is made in said Act for an appeal to the Minister of Municipal Affairs.

No buildings, fences, fixtures or other improvements shall be removed from any land in respect to which there is a subsisting tax consolidation agreement.

To those who properly come under the provisions of the above Act, all proceedings under the Tax Recovery Act 1929 are suspended in respect to the properties involved while such consolidation agreement is in force.

The Dominion Government has planned to purchase large quantities of fruit and vegetables for shipping to the drought areas of Saskatchewan and Alberta. The purchase is being made through the department of agriculture.

**You
NEED A
MODERN
WASHER**

Save yourself hours of hard "scrub board" washing—with a modern Westinghouse Cushioned-Action Washer. Designed to wash clothes quickly, better and with less wear. Million-Dollar Mechanism never needs oiling. A real investment. Full range of models for gasoline or electric power, priced to suit every buyer.

**YOUR
LITTLE SAVINGS...
FINANCE
MORTGAGE LOANS**

THENS of thousands of Canadian farms and homes benefit from first mortgage loans made possible by the accumulated savings of Life Insurance policyholders.

For every borrower, there are six thrifty people who supply the necessary funds.

This fact affords a striking illustration of the "double duty" performed by Life Insurance dollars. Not only do they ensure financial security for the men, women and children of Canada, but they also help to build and finance their farms and homes.

Life Insurance companies exercise the greatest care in the selection of properties upon which mortgage loans are made. To safeguard the savings of policyholders, security of principal and interest is and must always be the first consideration.

Over \$40,000,000 worth of Western Farm Products poured into the East last year

In steady work, the industrial employee maintains a high standard of living. His appetite for Prairie Province foodstuffs is insatiable. He and his family are one of the reasons why over \$40,000,000 worth of Western farm products found a market in the East last year.

Over \$40,000,000 is a lot of money: it's a sum that means much to the Western producer, collectively and individually. It went, generously, to every type of farmer.

For instance, those specializing in live stock, took in over \$15,000,000 for 127,000 tons of fresh and cured dressed meat, 175,705 head of cattle, 21,144 calves and 41,557 hogs shipped to the East. Nearly 10,000 tons of butter brought in \$4,500,000.00 more, while grains, poultry, eggs, honey and other commodities accounted for an additional aggregate of well over \$20,000,000.00.

That is why a prosperous industrial East means a prosperous agricultural West: for more and busier Eastern workers mean a greater demand on their Western commodity. Your purchase of a Made-in-Canada car helps towards this end.

There are 18,000 workers in Canada's automobile plants, and 15,000 employed in the 240 joint development plants. An average of four to a family means over 130,000 people whose prosperity depends to wholly or in part on the activities of the motor car builders. Add to this the thousands of railroad men, bus drivers and you have a huge concentration of Eastern Canada—a group of people who constituted much of the \$40,000,000 worth last year for Western farm products.

For statistical and further information about this industry, write to Automotive Industries, 1106 Laramie Building, Toronto.

WORLD HAPPENINGS BRIEFLY TOLD

King George and Queen will visit London, Paris and Rome, it was announced officially. It will be his first foreign tour since he was restored to the throne two years ago.

Refugee recipients in Canada pay from farmers and their dependents numbered 46,114 in September compared with 72,515 in September, 1936.

Trustees of the old Crystal Palace, burned in London 11 months ago, are considering erection of a \$2,000,000 Empire sports arena on the site.

The Queen has accepted as a Coronation year gift from the diocese of British Honduras a beautiful set of lace needlework, the work of a 15-year-old girl.

The Zolzi monks, custodians of one of Tokyo's most ancient Buddhist temples, reported to police the temple had been looted of nearly \$500,000 worth of ecclesiastical treasures.

Restoration of world-famous Westminster cathedral, severely damaged during the Great War, has been completed. The repair work, which cost \$1,000,000, was supervised by Sir John D. Rockefeller.

Leontine M. G. River-Smith, newly-appointed assistant-deputy to the governor-general, has arrived in Ottawa to take over his new duties. It was announced by the queen.

Leontine M. G. River-Smith, who will travel to England shortly, is a member of the royal household. He is a member of the royal household. He is a member of the royal household.

For English Zoo

Two Bison Among Canadian Animals Shipped From Alberta Park

A modern North Ark sailed from Montreal recently with two bison from the Pacific frontier Beaverbank cleared port carrying among her cargo a small menagerie composed of bison, beaver and beavers. Two of the bison, the animals sent in two by land, were a pair of each being shipped. All six animals were being shipped to the Dudley Zoological Gardens, England, by John P. McKellar of Elk Island, near Edmonton.

Quiet and well behaved the beaver and beavers carried little comment but not so the bison. It seemed at their limited quarters to receive the two "beaver" bison furiously at their wooden containers.

Wary kangaroos stood their distance of the bison, the animals of the crates. As one sailor observed, these two may be females but "they're not ladies." The beaver bison, the flying hooves and after a few moments in their new location on the Beaverbank's back deck, they were down. Both crates were boarded completely in front and half way down the sides to prevent the animals seeing anything. "Should they catch sight of anyone they would go almost insane," said Mr. McKellar.

The usual shipment added to the name of beaver bison as animal carriers. Already this year two others of the line have brought unusual animals into port, the Beaverbank having carried a camel and the Beaverbank a giraffe and two deers earlier this season. A further shipment of zoological exhibits, this time mountain goats, is expected shortly. It was declared by Mr. McKellar.

Plowed Straight Furrow

Farmer 24 Years Old Was Competitor At Fargo, Ontario

A crowd estimated at 45,000 people established a new attendance record for the 24th International ploughing match at Fargo, Ont.

Major attraction was 24-year-old John Hammond of Hagerstown, who finished the plough match when he was nine years old. It was drawn a yoke of oxen and officials said no straight furrow was ploughed by any other competitor in the match.

Paths For Dogs

New York had bridge paths for horse cycle roads for bicyclists, so why not poach-paths for dogs. That's the suggestion of Martin Ruseham, president of the Dog Cycle Protective Association, which has neither dogs nor profits.

An adult Salween can be made to revert to a younger form through starvation.

Had Exciting Trip

Rocky Stenographer Hunted In Sierra Madre Mountains Stenographer loved Elvira Rosenbauer, 24 years old, of Rochester, N.Y., one child day last week, had a most exciting trip to the Sierra Madre Mountains in Mexico.

So she resigned her secretarial job, and although she spoke no Spanish, had little experience as a camper and even less as an explorer, equipped herself and set out for a primitive prospecting camp 10,000 feet above sea level and 70 miles from Mexico's west coast.

To-day the young woman is back, her memory full of experiences, some funny and some perilous, and 30 boxes full of insect trophies which museum already are eagerly seeking.

Ward's Natural History Museum and the University of Rochester would get most of her collection, she said.

Life in the mountain camp was not all collecting insects, such strange things as cicadas, from whose backs little parasite plants grow, or glow-worms that look like miniature, equipped with a four-day stage of Malabar, when she was gravely ill, in the time when death came close to her.

Then, with a deadly cold, and a ride on a narrow mountain path from which even the most expert pack-mules sometimes plunged.

Mrs. Rosenbauer said that she slept with a bowie knife by her side, and yet dreamed for dinner every night according to the best British sporting tradition.

"The trip was the most wonderful thing that ever happened to me," she concluded, "and I'd go back in a minute if I could get some one to finance the expedition."

A New Machine

May Help Girl Who Cannot Walk, Talk, or Hear

An 18-year-old girl, deaf and blind arrived at Northwestern University, Chicago, where by means of a newly invented three-finger, multifactor, efficient machine, she is able to walk, talk, and hear.

The child has been specially selected by Dr. Robert H. Gaull, the university's professor of psychology, because every human faculty which the multimeter is presumed to bring in to being less dormant in her person.

She cannot walk because, unlike the majority of children born deaf and blind, she has failed to grasp the idea of self motion from the pressure of the hand of others.

The phonotactron transmits tones to the fingers through one vibrator. Dr. Gaull's instrument carries vibration—the sense of touch taking the place of sound—through these fingers and is expected eventually to be a five-finger instrument.

The child will never be able to see, but both her future teachers believe they will give her a voice as she grasps the ability to translate touch into sound and so bring her mind to the task of directing movements of her body.

Getting Even

It was late when the hostess at the reception requested the famous dame to sing.

"It is too late, madam," he protested. "I should disturb your neighbors."

"Not at all," declared the hostess. "Indeed, they poisoned our dog last week."

Quite A Mouthful

Ludwig Reckewinkel, 23-year-old Somerville automobile mechanic, petitioned the Middlesex Probate Court in Cambridge, Mass., for authority to change his name to 24-year-old Ludwig Reckewinkel and friends can't pronounce it.

Then he added: "And I can't pronounce it myself."

MATRON LOOKS SLIM ALL DAY LONG IN SIMPLE WRAP-AROUND HOUSEFLOCK

By Anne Adams

You want to look smart—and slender—and this is your perfect choice for a flattering houseflock that's easy to don. You'll find this jiffy wrap-around rock a joy to make of daily printed material or broadcloth which you'll cut and stitch in a jiffy. Do most the stitching out of the bodice, the way the darts assure a perfect fit and the clever shoulder yokes. You will find the pocket useful for hanky or key, and you may trim both yoke and pocket with the daintiest of ruffing. Order Pattern 480 to-day for 25¢ and what a "hooray" it is!

Pattern 480 available in women's size 34, 36, 38, 40, 42, 44, 46, 48, 50, 52, 54, 56, 58, 60, 62, 64, 66, 68, 70, 72, 74, 76, 78, 80, 82, 84, 86, 88, 90, 92, 94, 96, 98, 100, 102, 104, 106, 108, 110, 112, 114, 116, 118, 120, 122, 124, 126, 128, 130, 132, 134, 136, 138, 140, 142, 144, 146, 148, 150, 152, 154, 156, 158, 160, 162, 164, 166, 168, 170, 172, 174, 176, 178, 180, 182, 184, 186, 188, 190, 192, 194, 196, 198, 200, 202, 204, 206, 208, 210, 212, 214, 216, 218, 220, 222, 224, 226, 228, 230, 232, 234, 236, 238, 240, 242, 244, 246, 248, 250, 252, 254, 256, 258, 260, 262, 264, 266, 268, 270, Local Items**

Teachers from our school at-
tended the convention at Medi-
cine Hat last week-end.

The car load of apples which
arrived here from B. C. is now
moved to the rear room in the
Town Hall where they will be
distributed.

There are still a number of
Christmas Cards for sale at the
Review Office. They are a fine
assortment and at reasonable
prices. Call in and look them
over.

Last Friday evening Gordon
Memorial Y. P. U. entertained
the Young Peoples Union of
Westminster Church, Medicine
Hat, to a Hallowe'en party.
Over fifty young people had a
most enjoyable time together.

FOR RENT:— Two roomed
suite with bath and toilet. Ap-
ply to Redcliff Greenhouse.

WANTED:— Girl for general
housework, part time only, leave
same at Review Office.

A light fall of snow covered
the ground this week-end. This
will provide drink for the stock.

Mr. John Marty who has been
visiting his brothers and sis-
ters in the U.S. for several weeks
returned home last week-end.

Messrs. L. Hole and Ward Bros.
ranchers north of town are ship-
ping three car loads of cattle to
Calgary next Monday.

Mr. and Mrs. A. S. Peterson
celebrated their 32nd anniversary
of their wedding last Wednes-
day. They were married at Kirk-
intulloch, Dumfriesshire, in
Scotland.

Hon. J. L. Ralston K. C. of
Montreal will present the case
for daily and weekly newspapers
of Alberta in the reference to
the Supreme Court of Canada
to test the validity of the Al-
berta Act affecting newspapers.

Western Liberal Members of
federal parliament are demand-
ing tariff inquiry. They claim
manufacturers are not passing
along to consumers the tariff
reductions granted to industries
or raw or partly manufactured
materials entering into their
products.

New regulations and amend-
ments to those now in use were
unanimously adopted by the
Dominion-Provincial conference
of old age pensions which closed
a four day session last week-end.
The change will not be made
tabular until they have been ap-
proved by the Dominion and Pro-
vincial governments.

\$100,000,000

Dominion of Canada 1937 Refunding Loan

The Bank of Canada is authorized by the Minister of Finance to Receive Subscriptions for
this Loan, to be issued as follows:

One and One-Half Year 1% Bonds, due June 1, 1939

Issue price: 99.125% and accrued interest,
Yielding approximately 1.59% to maturity

AND

Seven Year 2 1/4% Bonds, due November 15, 1944

Issue price: 98.50% and accrued interest,
Yielding approximately 2.74% to maturity

AND

Fourteen Year 3 1/4% Bonds, due November 15, 1951

Call for on or after November 15, 1944
Issue price: 99.00% and accrued interest,
Yielding approximately 3.34% to maturity

The 1% Bonds will be dated December 1, 1937. The 2 1/4% Bonds and the 3 1/4% Bonds will be dated
November 15, 1937. Principal and interest will be payable in lawful money of Canada. Interest will
be payable without charge, semi-annually, at any branch in Canada of any Chartered Bank.

1% Bonds \$1,000
2 1/4% Bonds \$1,000
3 1/4% Bonds, \$100, \$500 and \$1,000

Proceeds of this loan will be used for refunding, in part, the outstanding total of \$122,799,800 on
converted Dominion of Canada 5 1/4% Victory Loan Bonds maturing December 1, 1937. The additional
cash required for this purpose will be provided from the Treasury.

Payment is to be made in full against delivery of interim certificates on or about November 15, 1937,
in the case of the 2 1/4% Bonds and the 3 1/4% Bonds, and on or about December 1, 1937, in the case
of the 1% Bonds.

5 1/4% VICTORY LOAN BONDS DUE DECEMBER 1, 1937 (WITH FINAL COUPON DETACHED)
will be accepted at par up to the amount required for payment of allotments of the new bonds.
Residual cash adjustments, where necessary, will be made at the time of delivery.

Subscriptions may be made to the Head Office of the Bank of Canada, through any branch in
Canada of any Chartered Bank or through any recognized dealer, from whom copies of the Official
Prospectus containing complete details of the loan may be obtained. The Minister of Finance
reserves the right to allot subscriptions in full or in part.

The subscription lists will open November 3, 1937, and will close at to any or all of the maturities,
with or without notice, at the discretion of the Minister of Finance.

OTTAWA, November 2, 1937.
